

Harrier® WDG

Controls:

Poa annua, goosegrass, crabgrass (large and smooth) and broadleaf signal grass on golf courses, sod farms, commercial lawns, etc., and in established landscape/nursery ornamental plantings

Stop A Lot Of Grass And Weeds Before They Do A Lot Of Harm.

Harrier™ WDG is a broad spectrum pre-emergent herbicide formulated with the active ingredient oryzalin to control over 50 annual grass and small-seeded broadleaf weeds including *Poa annua*, goosegrass, crabgrass and broadleaf signal grass. Harrier can be used on established warm-season turf varieties and on more than 400 ornamental

species in landscape plantings or in container and field grown nursery stock—all before the grass and weeds cause problems. To make Harrier even better, it now comes in an advanced 85% WDG formulation and a convenient resealable package.

Features	Benefits
85% WDG	Convenient to use; stays in suspension longer; excellent bloom and dispersibility; less staining if spilled
Broad spectrum of pre-emergence control	Controls over 50 grassy and broadleaf weeds, so you can reduce the number of products you inventory and apply
Low volatility	Can be used in and around ornamental landscape plantings and nursery crops; remains stable on soil surface up to 21 days following application
Convenient resealable 5-lb. containers	Ideally sized containers are easy to handle and store
Low-staining formulation	Can be applied around buildings, fences, sidewalks, driveways, walkways and landscape features

Directions For Use:

Apply 2.4 to 7.1 lbs. of Harrier per acre for non-crop land and industrial sites, prior to seed germination. Harrier will not control emerged weeds. Use a low pressure sprayer with 50 mesh or coarser screens, and be sure to calibrate sprayers before use. Always add sufficient water volumes (minimum of 20 gallons/acre) to obtain better and more uniform coverage. Rate per acre will vary depending on turf species, length of control desired (higher rates mean longer control) and number of applications.

Field Support:

When you need product or technical assistance, turn to Phoenix Environmental Care's local distributor network for responsive service and support. You can also direct any questions regarding Harrier to 1-888-240-8856 for prompt attention.
